Copy of Inspection Remark passed by Residency Surgeon, Gwalior at Munderi Dispensary,
Parone State, Gwalior, on 17th August 1904 when he visited the Dispensary.

I visited the Dispensary at Munderi to-day and found everything in as good order as one can expect with such limited accommodation.

Hospital Assistant Purushottam Anant seems to take an interest in his work and has evidently taken a lot of trouble amidst adverse circumstances. As far as I can judge from a short visit he is sound in Diagnosis and Treatment and seems to be more knowledgeable than I expected him to be coming straight from a Medical School. A proper Hospital is urgently needed here as there is plenty of scope for good work and also proper quarters for the Hospital Assistant and for the Compounder. The former has become ill with acute dysentery and is just now unable to keep the Hospital open. Finding the building of a new Hospital much can be done to improve the accommodation here by supplying the almirahs for the Drugs and Stores and getting doors fitted to recesses in the walls. Some towels also are needed. The Compounder seems to do his work conscientiously and is an intelligent youth.

Copy of a recommendation made by Captn. R. W. KNOX, M. B. I. M. S. Agency Surgeon
in Bundelkhand on a petition from Hospital Assistant Purushottam Anant to the
Administrative Medical Officer in Central India.

This Hospital Assistant was recommended by Captain W. R. Battye I. M. S., Residency Surgeon, Gwalior, by Lt.-Col. Henderson, I. M. S., Poona. Captain Battye was so pleased with his work that he promised to try and get him into Government employment. There was no vacancy at the time and he has since been trying to get a Municipal Post in Poona. He is anxious to get in Government employ in Central India Agency and if there is no vacancy he wants if possible a post in the Indore State. If there is not any vacancy would you kindly inform me that I may see if I can get him in a billet in Panna or Chhatarpur out Dispensary, if that has not been filled up.
